Tirgari S., Polous H., Foroughi H., Fakhari F., Nabavit M.A. (1969) On the occurrence and biology of little bee (*Micrapis florea* F.) and the first account of its migration (Hymenoptera: Apidae), in: Proc. Nat. Congr. Entomol. Pest Control (Iran), p. 4 (in Persian). Keywords: biogeography, absconding / migration / swarming, Iran.

709. Tirgari S. (1971) Biology and behavioral characteristics of the Iranian dwarf honeybee (*Apis florea*), in: Proc. 23rd Int. Beekeep. Congr., Moscow, USSR, 23, 344-345 (in German).
Keywords: general biology, behaviour, Iran.
710. Tirgari S. (1971) On the biology and manipulation of *Apis (Micrapis) florea* F. in Iran, in: Proc. 23rd Int. Beekeep. Congr., Moscow, USSR, pp. 330-332. Keywords: beekeeping, general biology, combs, classification, foraging, absconding / migration / swarming, queens, environmental effects, workers, Iran.
711. Tonapi G.T. (1958) Presence of propolis in the prothoracic spiracles of *Apis florea* Fab., Curr. Sci. 27, 133-134. Keywords: combs.
712. Tonapi G.T. (1959) The second thoracic spiracle in *Apis* (Hymenoptera: Apidae), Curr. Sci. 28, 291-292. Keywords: morphology.
713. Tonapi G.T. (1983) Some morphophysiological aspects of bee biology, in: Proc. 2nd Int. Conf. Apic. Trop. Clim., New Delhi, India, pp. 398-406. Keywords: general biology, environmental effects.
714. Torchio P.F., Torchio D.M. (1975) Larvae of the Apidae (Hymenoptera, Apoidea) 1. Apini, *Apis*, Research Report, Agricultural Experiment Station, Utah State Univ., 10, 1-36.
Keywords: brood.
715. Toumanoff C. (1939) The enemies of honeybees, Imprimerie d'Extreme-Orient, Hanoi, (in French). Keywords: disease / pests.
716. Towne W.F. (1985) Acoustic and visual cues in the dances of four honey bee species, Behav. Ecol. Sociobiol. 16, 185-187. Keywords: behaviour, physiology, honey.
717. Towne W.F., Gould J.L. (1988) The spatial precision of the honey bees dance communication, J. Insect Behav. 1, 129-155. Keywords: behaviour, honey.
718. Trung L.Q., Dung P.X., Ngan T.X. (1996) A discovery of *Apis laboriosa* F. Smith (Hymenoptera, Apidae) in northwestern Vietnam, in: Proc. 3rd Asian Apic. Assoc. Conf., Hanoi, Vietnam, pp. 7-14. Keywords: combs, defense, honey, absconding / migration / swarming, classification, Vietnam.
719. Tulloch A.P. (1980) Beeswax - composition and analysis, Bee World 61, 47-62. Keywords: combs.

720. Vaidya K., Bista M. (2000) Honeybee fauna in Mahakali Zone and their Ayurvedic relations, in: Proc. 4th Asian Apic. Assoc. Int. Conf., Kathmandu, Nepal, pp. 148-151. Keywords: bee botany, honey, India.
721. Veeresh G.K., Malik B., Viraktamath C.A. (Eds.) (1990) Social insects and the environment, Proc. 11th Int. Congr., IUSI, New Delhi, India, 765 p. Keywords: beekeeping.
722. Veeresh G.K., Malik B., Vishwanathan H. (1990) Diversity of *Apis* in Southeast Asia, in: Social insects and the environment, Veeresh G.K., Malik B., Viraktamath C.A., (Eds.) Oxford and IBA Publication Company, New Delhi, pp. 725-726. Keywords: classification.
723. Veeresh G.K., Sangappa H.K. (1993) Comparative foraging behaviour of four honeybee species on sunflower, Bangalore, in: Proc. Int. Symp. Poll. Trop., Bangalore, India, pp. 190-191. Keywords: behaviour, foraging, bee botany, ecology, India.
724. Veith H.J., Weiss J., Koeniger N. (1978) A new alarm pheromone (2-decen-1-yl-acetate) isolated from the stings of *Apis dorsata* and *Apis florea* (Hymenoptera: Apidae), Experientia 34, 423. Keywords: defense, ecology, pheromones.
725. Verghese A., Veeraraju P.V. (1990) Association of *Apis cerana* with *Apis florea* and *Eristalinus arvorum* during mango bloom, in: Proc. 11th Congr., IUSI, New Delhi, India, p. 479. Keywords: bee botany.
726. Verma L.R., Chauhan P. (1985) Distribution, abundance and diversity of insect pollinators in apple orchards of Shimla Hills, Indian J. Ecol. 12, 286-292. Keywords: classification, bee botany, India.
727. Verma L.R. (1987) Pollination ecology of apple orchards by hymenopterous insects in Matiana-Narkanda temperate zone, India, Final Report, Ministry of Environment and Forests, Government of India, 118 p. Keywords: ecology, bee botany, India.
728. Verma L.R. (1990) Beekeeping in integrated mountain development, Oxford & IBH Publishing Co. Pvt. Ltd., New Delhi. Keywords: beekeeping, brood, environmental effects.
729. Verma L.R., Sakai T., Matsuka M. (1991) Foundation of Asian Apicultural Association, Honeybee Sci. 12, 1-4 (in Japanese). Keywords: beekeeping.

730. Verma L.R. (1992) Apiculture in Bhutan: problems and prospects, in: Honeybees in mountain apiculture, Verma L.R. (Ed.), Oxford & IBH Publishing Co. Pvt. Ltd., New Delhi, pp. 163-179. Keywords: absconding / migration / swarming, disease / pests, Bhutan.
731. Verma L.R. (Ed.) (1992) Honeybees in mountain agriculture, Oxford & IBH Publishing Company, New Delhi. Keywords: beekeeping, environmental effects.
732. Verma L.R., Jindal K.K. (Eds.) (1997) Fruit crops pollination, Kalyani Publishers, Ludhiana. Keywords: bee botany, India.
733. Verma S. (1988) Chromosomal analysis of mitotic and meiotic divisions of four species of the genus *Apis* (honeybees), in: Proc. Int. Symp. Rec. Adv. Cytogen. Res., Kurukshetra, India, p. 100. Keywords: genetics.
734. Verma S. (1993) Biodiversity in Asian honey bees: cytological perspectives, in: Asian apiculture, Connor L.J., Rinderer T.E., Sylvester H.A., Wongsiri S. (Eds.) Wicwas Press, Cheshire, Connecticut, pp. 89-93. Keywords: genetics, honey, reproduction.
735. Verma S.K., Phogat K.P.S. (1994) Impact of pollination by honeybee (*Apis cerana indica*) on the yield gain of radish under valley conditions of Himalayan hills of U.P. (India), Indian Bee J. 56, 183-186. Keywords: bee botany, India.
736. Viraktamath S. (1989) Incidence of Greater Wax Moth *Galleria mellonella* (L.) in three species of honey bees, Indian Bee J. 51, 139-140. Keywords: honey, disease / pests, combs, India.
737. von Buttel-Reepen H. (1906) Contributions to the systematics, biology as well as the historical and geographical distribution of honeybees (*Apis mellifica* L.) their variability and other *Apis* species, Mitt. Zool. Mus. Berl. 3, 117-201 (in German). Keywords: general biology, classification, Indonesia, Sri Lanka, Thailand.
738. von Buttel-Reepen H. (1921) Contribution on the systematics, biology as well as the historical and geographical distribution of honeybees, Arch. Bienenkd. 3, 19-67 (in German). Keywords: general biology, classification, Indonesia, Sri Lanka, Thailand.
739. von Frisch K. (1955) Lindauer's observations and experiments on Indian bees, Sitzungsber. Bayer. Akad. Wiss. 10, 209-216 (in German). Keywords: behaviour, foraging, India.
740. von Frisch K. (1967) The dance language and orientation of bees, Belknap Press of Harvard Univ., Cambridge, Massachusetts. Keywords: behaviour, foraging.

741. Wakhle D.M., Desai D.B. (1983) Enzymes in Indian honeys, in: Proc. 2nd Int. Conf. Apic. Trop. Clim., New Delhi, India, pp. 703-710. Keywords: environmental effects, biochemistry / organic chemistry, honey, India.
742. Wang Z.P. (1989) Report on the chromosomes of *Apis dorsata* Fabricius and *Apis florea* Fabricius, Apic. Sci. Tech. 1, 36 (in Chinese). Keywords: genetics.
